{xtypo_info}Click on an image for details.{/xtypo_info}

You can view in depth specification including Janka (hardness) rating at <http://www.australianhardwood.net/>

This site is invaluable for it's in-depth information about timber types.

Such as ;

- Appearance of the tree
- Where it is generally sourced
- Samples of timber showing some typical variations in colour
- Applications
- Properties
- Images of the material in service
